## about me ...

from: Brazil  
at: Milan  
bday: 26/II/90  
phone: +39 3495174402  
mail: annap.vieira@hotmail.com  
speak: portuguese  
          english  
          italian  
          german

Was born in Salvador, Bahia, Brazil, city by the sea, full of light, rhythms and poetry.

In Canada I discoverd how the world that I knew was small, where I found my desire to expand my borders.

In Italy I understood how the world could be small and at the same time big, there I began to realise what kind of life I wanted, and what paths I should follow so I could be who I wanted to be.

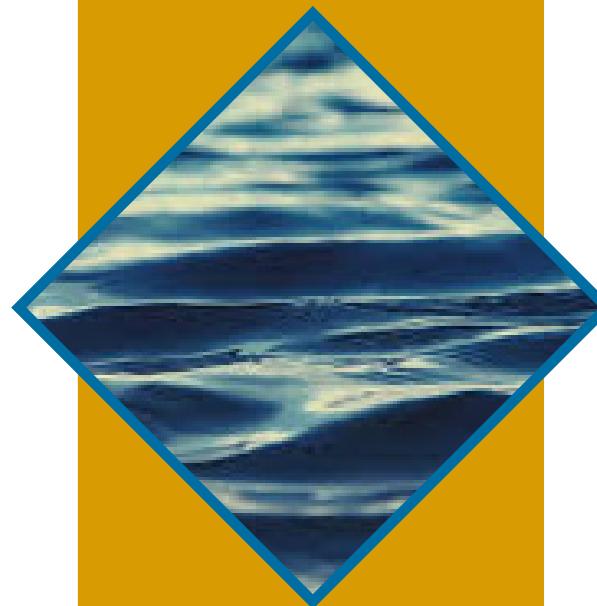

World over Home, Job over Family, it is not an easy choice, or better it is not a choice at all.

My greatest passion is to travel, meet new people, new places, learn new things.

Learning new languages is a challenge, a hobby.

Nuance Motor Yacht

Megattera Sailing Yacht

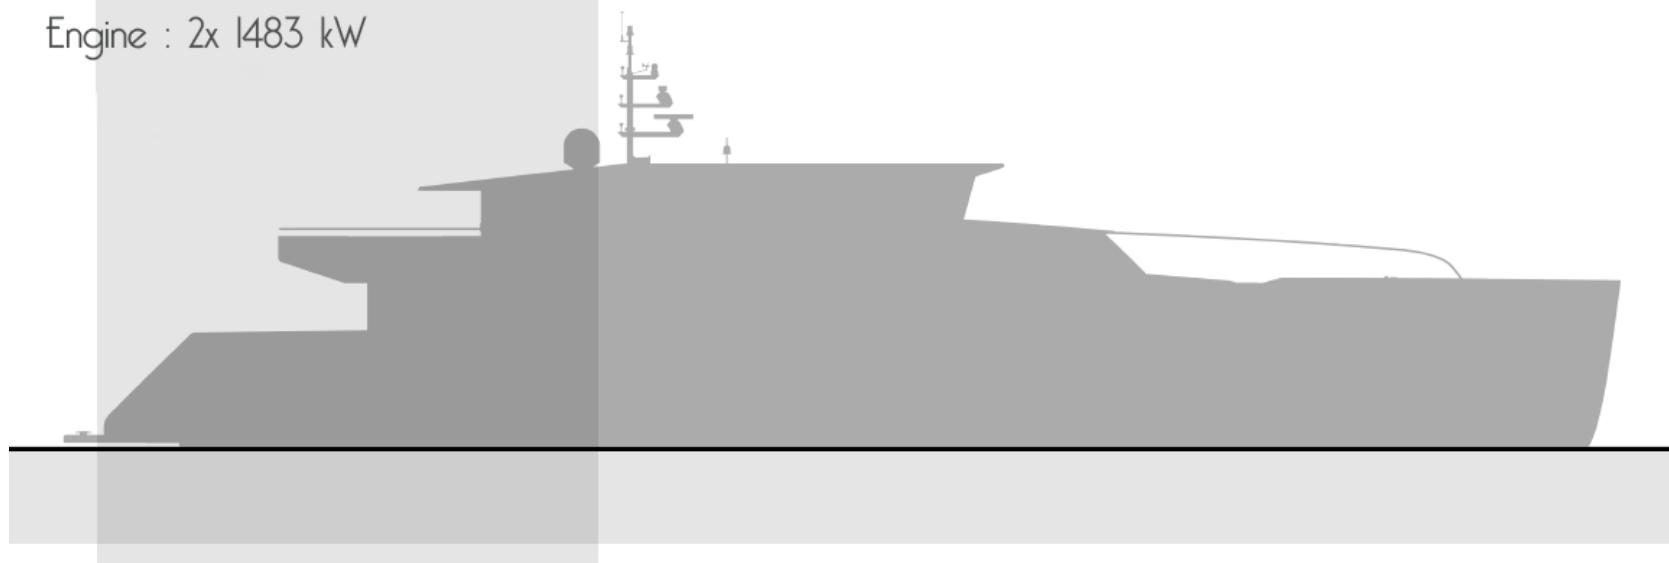

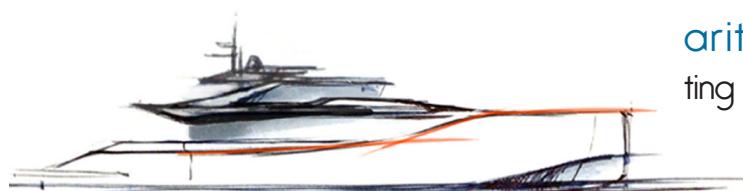

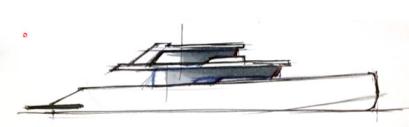

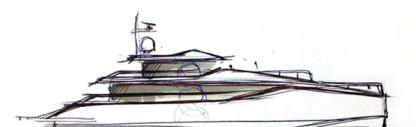

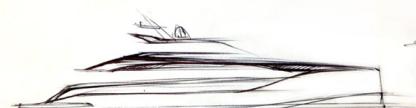

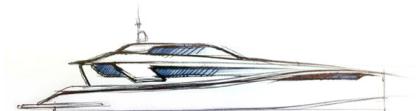

exterior designer: JongHoon Kim, Nicolò Piredda.  
interior designer: Anna Paula Vieira, Nicolò Piredda, Irem Karaer  
naval engenier: Gianandrea fiorillo

L.O.A: 38.50m (127 ft.)  
Beam max: 7.90m  
V cruise: 13.00kn  
V max 16.00 Kn  
Range: 1500nm  
Material: Aluminium  
Engine : 2x 1483 kW

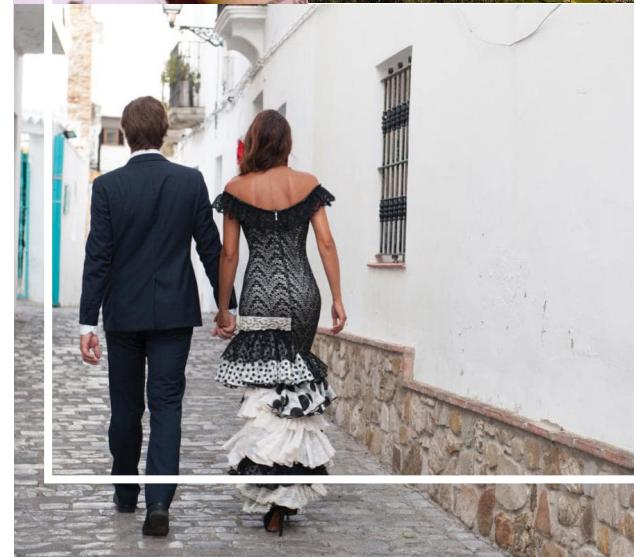

Nuance Yacht Design. is the studio created for the motorboat workshop held by Massimo Grgori Grgic during the Yacht Design Masters at Politecnico di Milano.

Nuance is a very slight difference on meaning, response or a small variation in color or tone: **a small detail that breaks the monotony**. That is the filosofy of our design.

The briefing developed for the project was a 38 meters mediterranean yacht, for a young spanish couple in the wine business, with a young son. Special request: **wine cellar**.

**Light** was one of the main concerns when designing the vessel. The **connection** between inside and out moved us to **break the linearity of the decks**, giving a quite interesting result on the general design.

Master in yacht design

Megattera Yacht Design is the studio created for the workshop held by professor Massimo Paperini during the Yacht Design Masters at Politecnico di Milano, with the aim to design a **blue waters cruising yacht**.

The Humpback whale travels through the ocean looking for warm waters, for this reason it was chosen to represent our design team.

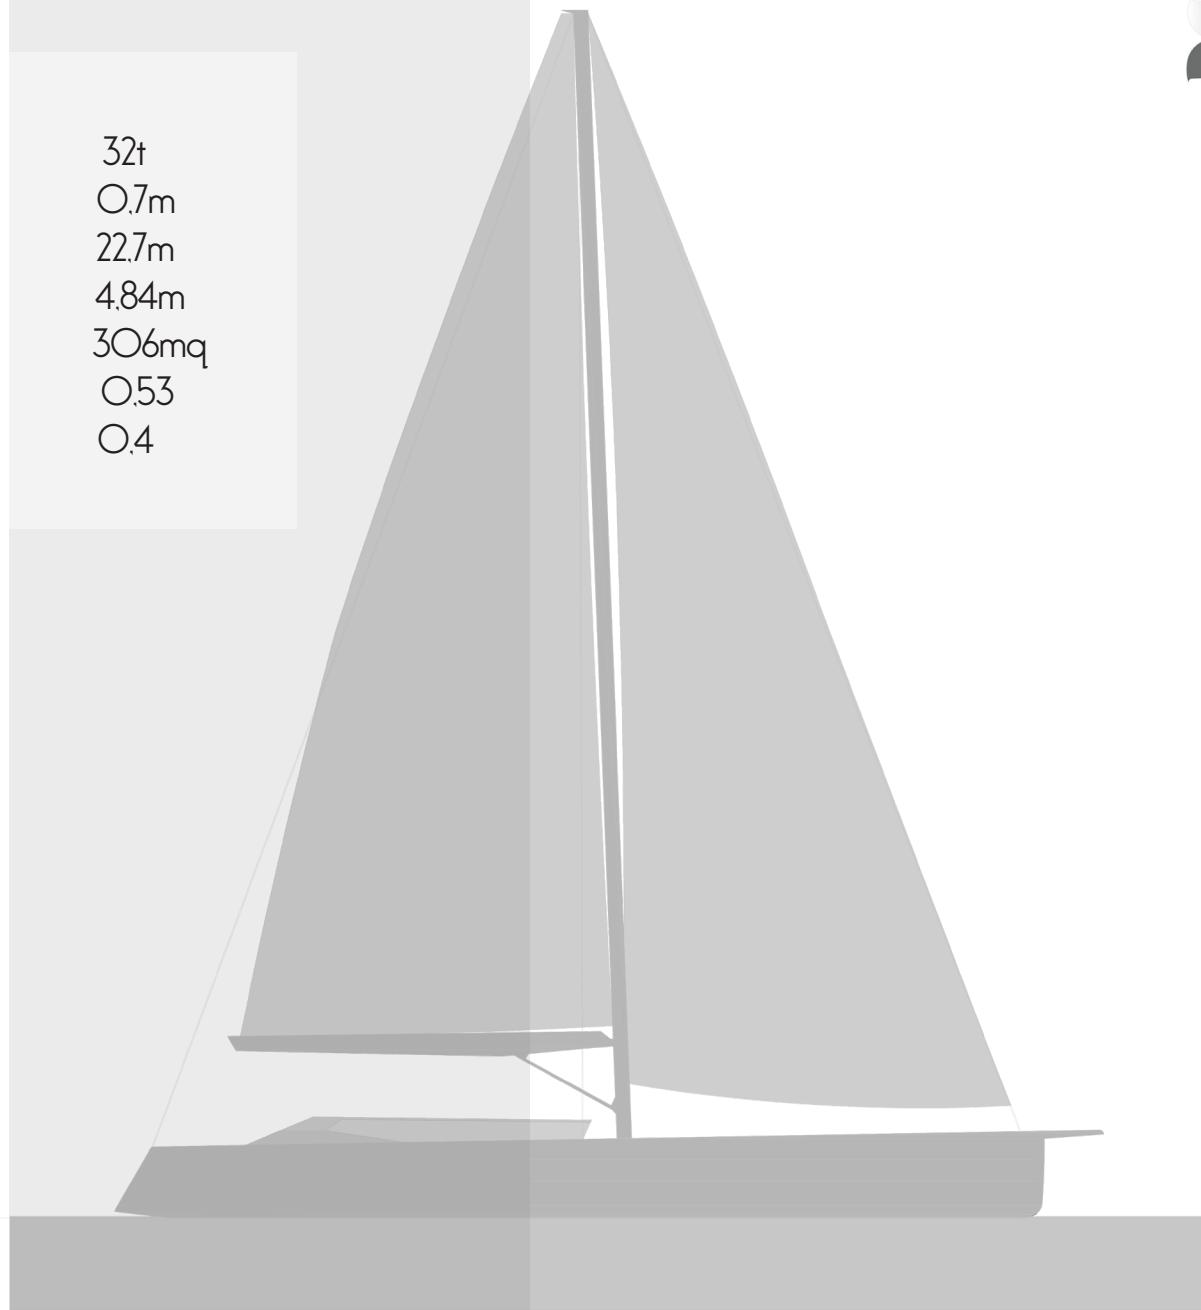

The target of the project was a married middle aged couple from New Zealand, with a request for a **comfortable yacht** to spend most part of the year sailing through the south pacific islands.

Naturally **Italian automotive design** was an important source of inspiration for this project. We also based our design choice on **lines of the nature**, not the smooth and curved ones, but the **fast and strong**.

"Eu vim....  
Eu vim da Bahia cantar  
Eu vim da Bahia contar  
Tanta coisa bonita que tem  
Na Bahia, que é meu lugar  
Tem meu chão, tem meu céu, tem meu mar  
A Bahia que vive pra dizer  
Como é que se faz pra viver  
Onde a gente não tem pra comer  
Mas de fome não morre  
Porque na Bahia tem mãe lemanjá  
De outro lado o Senhor do Bonfim  
Que ajuda o baiano a viver  
Pra cantar, pra sambar pra valer  
Pra morrer de alegria  
Na festa de rua, no samba de roda  
Na noite de lua, no canto do mar..."

GILBERTO GIL - EU VIM DA BAHIA
